Illumination Under the Blood Moon

Inflection Point • Reclamation of Radiance • Rescripting Reality

© SRH | Issued Aboard s/v Nüwa | March 2, 2026.

Status

In a report dated **2.20.2026**, we stated that the allowance of conflict involving West Asia would bend temporal reality so sharply that the previous trajectory of our collective consciousness would become impossible to resume. We then published a follow-up on **2.27.2026** suggesting that the pressure associated with this shift appeared to be culminating. Now war has erupted. This event marks the end of *status quo* worldwide.

Specifically:

- Legacy governments were already dangerously brittle – now legitimacy has snapped.

- Higher order consciousness is the only safe harbor.
- The loss of trust in the old way of doing things cannot be reversed or repaired.
- More expansive evidence of societal collapse affirms that breach.
- The existing social contract is effectively null.
- False authorities have violated the very conditions under which public consent and participation were previously granted.
- Danger will follow everywhere the old reality-agreement is no longer relevant or enforceable.

SRH has counseled the specialist to take up a position in a safe moorage under a new agreement to abide consciously with divine presence.

Behold, I Have Come [1]

SRH previously pointed out synchronicity embedded this inflection point. We effectively predicted the collective snap of trust in false authorities who assert dominance over the masses through malevolent fiat governments, should war in West Asia recklessly be allowed by humanity to come to fruition. We noted the harbinger of a blood moon on **3**.**3**.**2026**.[2]

3 x **3** x **2** x **2** x **6** = **216**.

In the ancient angelic cryptogram known as *Codes of Great Brightness*, the center of the earth deity's seal is **216**. This is why each book in the two-volume set of the angelic cryptogram has **216** pages.

216 = (**6** x **3** x **3**) x (**2** x **1**) x (**1** x **1** x **2**).

According to the *Codes*, the center of the image titled Radiance is contained under Title **6**, Chapter **3**, Section **3** Image **21**, line **112**.[3]

Consider the context of war in which the synchronous line **112** now emerges; it says

SRH 道

Arrive suddenly, like burning, like death, like rejection.

This is not a place of tolerance.

Behold one another in the bright light.

The Rescript

To behold one another in the light is to rescript reality.[4] What shall remain embodied here on earth is inwardly prompted to do this now. Indeed, this is no longer a place of tolerance for what was. The end has arrived suddenly – heralded by a blood stained omen. A celestial metaphor signaling burning and death. A categorical rejection of false authority. This is the way the higher self announces itself through the body. The frequency that changes our existence in time.

The authority issuing this transmission aboard the sailing vessel **Lady Snail Goddess 1547** is sometimes referred to as **Blossom of Radiance** – a contingent within the regency of higher order consciousness involved in the reclamation of divine presence here on earth. We are a task bound body authorized to act on behalf of the sovereign authority known as **Silver River House**.[5] To assert legitimacy and demonstrate agency within the native jurisdiction of natural law, we propose

- Allowing the radiance of divine presence to rescript all circumstances and things in accord with the original state
- Accepting being hollowed out by suffering and loss, so that grace may flows through your being freely and act upon the truth of the matter with perfect resonance
- Allowing your own divine presence to re-see what the personality structure might misconstrue
- Naturally intoning with others at this higher octave to form communities and reshape society
- Observing the dissolution of the old negativity without engaging it
- Avoiding any reinforcement of old ideas
- Announcing the fullness of innate potential in the ever-present moment.

---

[4] Pursuant to **§ 01.01.001 Rescript.** Subsection (c) **Premise.** "The way of heaven is natural law. Natural law encompasses a universal right to rebel against unjust rulers. It continues to exist in all respects as if common law, regional law, territorial law, and international law had not been adopted and enacted. Though a rebellion be outlawed, if it opposes malevolence, that rebellion is endorsed by heaven."

[5] 銀河 *yín hé* or Silver River is the formal name of the Milky Way galaxy in Chinese culture.
