Multiple reports and publications by SRH forecast **2026-2027** in terms of volatility and rapid change. Our collective circumstance certainly reflects this outlook in the lead up to Chinese New Year **2026** – a **fire-horse** year in the Xia Calendar. We now see the *status quo* collapsing amidst a dramatic awakening worldwide. Societal upheaval, a rejection economic corruption, and pressure for sudden regime changes. All unfolding in a context of frequent natural disasters and myriad social instability contagions.

In **2025**, we issued a long publication affirming the commission of the ship **Nüwa** in Hong Kong in **1965** at the outset of the Cultural Revolution in China. Her command deployed in **1966**, the last fire-horse year preceding **2026**. (BBI, p. 71, Taylor, et. al., 2025) At the fore of this deployment came **1967** – a **red-goat** year. We witnessed one of the most violent, chaotic, and internally fragmented years of the Cultural Revolution. This followed the death of over fifty million resulting primarily from the “Great Leap Forward” – a dramatic expression of acquiescence to false authority. Specialists at SRH now forecast a similar dynamic to scale globally, by several orders of magnitude beginning in the coming red-goat year, **2027**. We have documented a “high probable” potential for a catastrophic purge of all false authority that remains exalted by legacy-consciousness; we see it being triggered now, both in terms of

geopolitical instability and natural earth changes. This marks a temporal trend at the front end of the current **fire-horse** → **fire-goat dyad**. (*Emergent Phenomena 2026*, Taylor et al., 2025)

Statutory Precedence in Higher Order Consciousness

Symbolically, the **2026** yang fire-horse or *bing-wu* represents heavenly fire manifesting sudden upheaval, instability of false authority, and return of authentic agency. The **2027** yin fire-goat or *ding-wei* represents earthly fire born of contained heat and internal pressure, thus manifesting as purging, factional struggle, and structural destabilization caused by the earth herself.

Classical Feng Shui sources describe the emergent dyad as historically volatile. In our **2025** publication, we cite **§§ 06.03.005** and **06.05.003** in the formal literature of the peerage; these statutes are titled *Fire from Heaven* and *Bring the Fire Below*, respectively.^(OG, Taylor, 2017) The context in which these ancient codes are applied is the **red-horse** → **red-goat celestial stems** of **2026-2027**. This represents the current earth purge of false authority and legacy-consciousness – the lifting away of failed systems based on misperceptions of separation. The reclamation of higher order consciousness now ensues to empower natural agency.

The first line under the image of *Fire From Heaven* equals **11•11**; it says

The fire that exists in heaven is superior – the eldest possess it

It is not friendly towards evil – gangsters are punished.

(*Original Gossip*, Taylor, et al., 2017, line 121)

Red-goat arrives during the black moon of **2.06.2027** amidst another ring of fire (annular solar eclipse).

Line **206** appears under the image of *Bring the Fire Below*; it says

A fellowship takes as their model the economy of natural law

Among people, flexibility is the proper place for success.

(*Original Gossip*, Taylor, et al., 2017, line 206)

Our Take

The collapse of the *status quo* is now underway. Not everywhere is directly affected. Yet. Undeniably however, a period of extreme hardships is becoming predominant for some. By mid-**2027**, we expect some specialists at the fore to begin exemplifying the agency of a new octave of consciousness, *writ large*. This does not refer to performance channelers sensationalized by YouTube influencers. It means

SRH 道

the energy of desolation-deprivation is released to maintain coherence. This circle of light or “fellowship” under the aegis of Lady Snail Goddess 女娲氏 (**Nüwa-lineage**) proceeds like this.

Historically, a lineage claiming descent from Nüwa is internally guided to repair broken systems, restore natural law, re-establish infinite potential *en vivo*, weave new social fabrics, and stabilize collective reality-agreements after fire-driven collapse. So, in fire-horse → fire-goat transitions, the Nüwa-lineage archetype becomes an agent of re-ordering and rebuilding on the basis of natural grace.
